

The Dubarry Footwear Protection Range

Cleaner

- Aids in the removal of dirt and other residues
- Prepares leather for proofing and conditioning

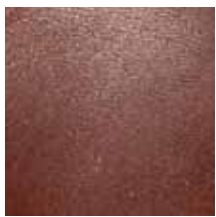

Suitable for all types of footwear

Conditioner

- Conditions the leather restoring its original appearance and also offering water repellency

Suitable for all smooth leather

Protector

- Restores a water repellent finish, offering high stain resistance

Suitable for all nubuck and suede leather

Love your Dubes...and they'll love you back

Use tap water only to clean fabric section

Use **Cleaner** on all leather parts of the boot

Apply **Protector** to the nubuck and suede leathers

Apply **Conditioner** to the smooth leathers

Note: This boot represents treatment required for the Newport, Fastnet and Shamrock boots.

Note: This boot represents treatment required for the Ultima boot.

Dubarry Leather Cream

In addition to the other three care products described in this guide, Dubarry strongly recommends for well worn footwear, use of our **Leather Cream** in the flex part of the foot. This will help protect, preserve and soften the leather.

IMPORTANT: salt water can be very corrosive to leather. To prolong performance and protection for your Dubarrys, always scrub them with a brush and rinse with fresh tap water after exposure.
